## Production Assistants – Technical

Start your technical video career with us. If you have completed a film course or just starting your career in the film industry. Come be a production assistant in our video production sets and gain experience from the experts.

This position is for individuals that are still early in their video career (less than 1-year experience ) with an interest in becoming pros in cinematography and video editing.

### What you will do

- Assist the cinematographers to carry equipment, set up cameras, tripods, and lights on set
- Running errands on what's needed during productions.
- Reviewing footage and writing notes.
- Conduct basic research and carry out general admin tasks.

### Experience you MUST have

- Be passionate and hungry to grow your film and video production career
- Have less than 1-year experience (after school) in video production
